

# RIO GRANDE EPHEMERAL SANDBAR AT THE SAN ANTONIO OXBOW & SOME COLONIZERS OF 2020

## Legend

- track from Pueblo Montano 3.3 mi. approximately to end of sandbar and back
- track from Andalucia Park 2 mi. approximately to end of sandbar and back
- parking area point of interest trailhead
- approximate scale=1"=1000'
- BASE MAP: GOOGLE EARTH image 10-4-2020

## A brief history of this location:

The sandbar appears after Rio flooding of 2019. By September 2019 there are cottonwoods, grasses, sedges and some flowering plants established. By May 2020 flowering is well underway and continues until hard freeze when cranes take over.
